

Operational Scope and Supply Policy

Swanline Print do not supply end users and operates a strictly trade only policy. We will not be influenced in any way to manipulate potential custom.

Our sister company BoxMart Ltd (www.boxmart.co.uk) operate in the chosen market sectors of gift packaging, floristry, wines & spirits and hamper packaging, where supply is generally from stock products. Nevertheless, it is not unusual for clients to request that we develop lines further and provide constructional design innovations and solutions.

Our agreement to work with a client in these instances is only decided upon if our intelligence gives a clear indication that there is no conflict with the Swanline supply policy and that there is no question of BoxMart compromising a Swanline client.

Boxmart supply situations are only agreed for design innovations and solutions for which our customer has specifically given us the task. We do not solicit business that is established, nor do we endorse any underhand dealings.

If there is any query or doubt about these policies, please contact nick@swanline-print.co.uk who will be pleased to clarify any uncertainty.
